

RETANG SEBEKA

With a degree in communication design and a stint in the advertising world, Retang's passion for the visual landscape means that he has a definite keenness to express himself as a builder of quirky, crazy worlds through photography and video. As an avid consumer of visual content, his presence in the RISE program speaks to a relentless artist who best articulates his craft from a sense of truth. Retang is attracted by the challenge of a brief and seeing it from an initial treatment phase all through to final output. All whilst applying his skillset.

Lampost, Parkwood, Johannesburg, South Africa.
